WHY CHOOSE US?

We understand that going to the dentist is not on the top of most people's list- after all, it can be costly, uncomfortable and inconvenient.

At Gentle Dental & Implant Clinic we go the extra mile to make your visit with us as welcoming as possible by providing a highly skilled and knowledgeable team that will assess your individual situation.

By getting to know you as a person with distinctive needs and requirements we'll create a dental health program that provides only the procedures you need and eliminates those that you don't.

YOUR INITIAL VISIT

During your initial visit with our team we'll take the time to discuss the health of your mouth and teeth which will allow us to develop a tailor made dental health plan.

Next we will answer any questions you may have and discuss the various treatment options available to you. By the end of your first visit, our goal is that you are more informed than ever about the state of your oral health and the many ways we can help you nurture, preserve and enhance it.

A MORE AFFORDABLE DENTAL SOLUTION

We believe good dental health is important- not only to your appearance but to your overall well-being, which is why we do our very best to make our treatments as affordable as possible.

As well as keeping our costs as low as possible, we also offer a membership plan that gives you simple, flexible ways to pay for your dental care.

Check our website www.gentledentalclinic.com for our list of fees or find out about becoming a member and discover all the benefits available to you through our plan.

It's important to keep in mind that every individual case is different and prices may vary depending on how complex the procedure is and how much time it takes to complete the work to our high standards. You can rest assured, however, that we will give you a personal and detailed quote before we begin any treatment.

OUR PRIORITY IS OUR PATIENTS

Whether it's been six months or even if you've never been to a dentist before, we believe it's never too late for anyone to improve your dental health.

Our team of premier professionals warmly welcome you to come in and see how we get you achieve a healthier, happier smile!
